

The Honorable Paul Ryan
Speaker of the House
232 Capitol Building
Washington, DC 20515

The Honorable Kevin McCarthy
Majority Leader
H-107 Capitol Building
Washington, DC 20515

The Honorable Nancy Pelosi
Democratic Leader
204 Capitol Building
Washington, DC 20515

The Honorable Steny Hoyer
Democratic Whip
148 Capitol Building
Washington, DC 20515

Dear Speaker Ryan, Leader Pelosi, Representative McCarthy and Representative Hoyer,

On behalf of The Delaware River Yachtsmen's League we strongly urge you to oppose any legislation, including H.R. 200 and H.R. 2023, that would undermine the conservation provisions of the Magnuson Stevens Fishery Conservation and Management Act (Magnuson Stevens Act). Our members rely on healthy, abundant fish populations, especially of river herring and shad and any legislation that would weaken their management should not move forward in this Congress.

H.R. 200 and H.R. 2023 would increase the risk of overfishing and threaten the progress we've made on rebuilding vulnerable fish populations. They would undermine years of strong science-based management that is helping stabilize fishing businesses and coastal communities.

These bills would extend the timelines for plans to rebuild vulnerable fish populations, delaying when fishermen would benefit from a fully healthy stock. They would exempt fish populations from the use of science-based annual catch limits designed to prevent overfishing. The Magnuson-Stevens Act is helping to end fishing at unsustainable rates and put our fish on the road to recovery. The signs of success for river herring and shad—more and bigger fish dispersed throughout a broader range—are evidence that strong fisheries management can work.

The Delaware River Yachtsmen's League is an organization that represents over 5,000 concerned voters that enjoy recreation boating along the Delaware River. Many of our members are avid fishermen and are impacted by these policies.

We urge you to oppose H.R. 200 and H.R. 2023, and any other legislation that would undermine the conservation requirements that have been critical to the success of the Magnuson Stevens Act.

Sincerely,
Paul Jusino
President
D.R.Y.L.
